

2025 AUTUMN WINTER

For a More Comfortable Diver's Life by the Sea

~ New Large-Capacity Laundry Connecting to “Osezaki Future” ~

To make daily life in Osezaki more comfortable for divers who live by the sea, we've installed six new large drum-type laundry units.

□ Warm & Cozy Diver Life

As the autumn winds grow cooler, divers can now wash and dry their gear quickly and softly. Four new laundry sets (TOSHIBA 10kg washers & Rinnai gas dryers 6kg) have been added near the Forest Tower bath entrances. Enjoy “instant dry & fluffy comfort,” and relax in the adjacent lounge Nagino-ma while you wait.

**□ Ocean-View Laundry Time**

Two new laundry spaces with 10kg drum washer-dryers have also been set up in the Bay Side Tower's ocean-view rooms “Shirokuma (304)” and “Hanatatsu (204).” Enjoy a serene washing moment overlooking Suruga Bay.

**□ Step by Step Toward Warmer Hospitality**

This upgrade was realized through the voices of our diving guests and staff, supported by funds from our Security Token Offering. May your nights in Osezaki be as warm and restful as freshly dried wear.
